

## **MSC Courtesy List Pertaining to Smoke 5-1-15**

Over the last couple years, the Board has been approached by several Members who have asked for a “Smoking Policy” to be set into place to control or limit smoke within the Club’s fenced-in property. Various Board members, past & present, have heard numerous arguments both for & against smoking within the fence. After much discussion & consideration, the Board has decided to first approach this issue with a common courtesy list for all members to follow & abide by. For this honor system to be successful, EVERY member & their Guest must follow the following basic courtesies:

These courtesies apply equally to all forms of smoke and/or tobacco, including cigarettes, cigars, pipes, e-cigs, chewing tobacco, and grills.

1. Smoking on the pool deck, around the pool office, within the bathrooms, or in the Pavilion is strictly prohibited.
2. Do not smoke on the concrete area around the baby pool.
3. If you approach an area or sit at a table of non-smokers, please do not light up.
4. If you are a non-smoker, do not approach an area or table with smokers and attempt to make it a non-smoking area.
5. As a smoker, please consider walking to an area where no one is around you before you light up. Thus, if you are a non-smoker and see a temporary smoking area, please go to another area.
6. If you smoke or use a grill, always know the direction of the wind, so other members are not caught downwind of your smoke.
7. Smoking on Swim Meet nights anywhere near the pool of competition, or any area where swimmers are at, is a big no-no.
8. Do not smoke close to the Volleyball Court during a volleyball game.
9. Do not smoke close to the Tennis Court when someone is playing tennis.
10. Do not throw your butts on the ground or off the bluff.
11. All members are responsible for your Guests, and this includes their smoking habits.
12. If you are using a grill, please make sure it is moved to an area where tables are not occupied with members.
13. You must have permission from the Board prior to lighting the open fire pit.
14. Smoking is not yet prohibited inside the fence, but could be if these courtesies are not followed.
